**Re: Notice from FBI regarding Ammonium Nitrate and Urea**

Following the terrorist incidents on September 11, 2001, the Federal Bureau of Investigation (FBI) is requesting the assistance of all retailers of bagged ammonium nitrate or urea to be aware of anyone purchasing these materials that acts suspiciously or has already purchased quantities that were suspicious to you.

If you suspect that a quantity of ammonium nitrate or urea purchased from you may be intended for use other than as fertilizer, you are requested to contact your local FBI office and provide any details regarding the purchase or information regarding the purchaser.

You can also contact Lt. Dennis Journigan at the Nevada Department of Agriculture in Elko, Nevada, for assistance in reporting the incident to the FBI. He can be reached at (775) 738-8076.
